[draft approval revised 2018 budget to complete closure of farms nov 7 2018 .docx](#)

I will be emailing the attached today, copying Flaire.

I will also start the approval letter through concurrence for Eric's signature (also attached). I will include all of you on the concurrence strip.

We have asked them to respond by the 21st, but I will be out of the office from the 21st until nov 26.

As we discussed, let's change to Nov 21, the day before thanksgiving so that we have a chance of getting back to the ERT before Thanksgiving. I'll follow-through with calls to Dawn and also, since I'm calling their detailed attorney about something else, will mention this as well.

Thanks

So – are you suggesting changing the response date from Nov 26 to November 16 ?

I think the letter is fine, but, although this needs to be turned around quickly, I think it is not reasonable for us to provide the VI with only a day to respond to us. Absent the need for quick turn around, I would have suggested two weeks, which is what we've provided them in the past, but since I don't think this presents any substantive issues, I suggest we provide through mid-day Friday, so we can get back to the ERT this week.

I plan on sending the attached email to Dawn Henry this afternoon. You all received a draft of this last week (I changed the response date from Nov 15 to November 26).

We can start the letter to the ERT through concurrence before then.

Subject: ERT 2018 Supplemental Budget Request

As you know from Carol's emails, the ERT submitted a supplementary budget proposal so that it can complete landfarm closure in 2018 rather than 2019 (by dec 15 to be specific) . Given that 2019 is fast approaching, we would need to move fairly rapidly on this.

Attached is a draft email to the Commissioner of DPNR to see if they have any objections to the budget modification. Assuming no objections, we can then approve the supplemental budget. I've attached a draft letter setting forth that approval.

See what you think. I gave DPNR a very short turn around time, which is likely unrealistic but there seems like a non -issue.
